533 mm H x 178 mm W x 305 mm D	
Service Clearance for Lid Removal	
565 mm	
*using 1" Trichlor tabs	

The Model 300 automatic chlorine/bromine freestanding feeder not only saves time, but also reduces the manual handling of chemicals. Years of customer satisfaction has proven the Model 300 to be an ideal choice for new or existing pools or spas. An external fine control valve lets you adjust the feed rate to meet specific pool or spa requirements. This is the perfect way to sanitise your pool or spa easily, and create more time for enjoying them.

Standard features include:

- Completely enclosed system, no escaping fumes.
- No special venting required.
- Operates on the pressure side of the pump.
- Holds approximately 2.2 kg of large or 1.6 kg of small Trichlor or Bromine tablets or sticks.
- Can treat pools between 45 m³ and 180 m³
- Top loading for ease of adding chemicals.
- Also available in 482 mm and 737 mm models for a treatment capacity up to 212 m³.
- Also available with a clear housing for easy tablet viewing.

Installs easily on the pressure side of the pump, downstream of the filter and heater.

RAINBOW 320

Automatic Chlorine/Bromine In-Line Feeder

Saves time, reduces the manual handling of chemicals.

*using 1" Trichlor tabs		

The Rainbow Model 320 uses large or small Trichlor or Bromine slow dissolving tablets to make sanitising your new or existing pool or spa easy and automatic.

Designed for installation in the return line, the Model 320 feeder dispenses sanitiser directly into your pool or spa, downstream of all equipment.

Standard features include:

- Positive external fine-control valve lets you adjust the feed rate to meet pool or spa demand.
- No special venting required.
- Completely enclosed system, no escaping fumes.
- Holds approximately 2,2 kg of large or 1,6 kg of small Trichlor or Bromine tablets or sticks.
- Can treat pools between 25 m³ and 318 m³.
- Top loading for ease of adding chemicals.
- Also available with a clear housing for easy tablet viewing.
