

PRO VALVE

Triton® II with Pro Valve

OFFERS MAXIMUM CONTROL

The Pentair **Pro Valve** enables external control systems such as IntelliPool™ to perform automated filter backwash.

- Pneumatically operated.
- Automatic return to filtration position in case of power failure.
- 220-240VAC operated pilot valve, tubing and connectors included.
- 2" ports enabling low head loss.
- 63 mm unions included.
- Robust design rated up to 6 bar.
- Ports can be 90° turned to facilitate installation.
- Pro Valve available as kit with Triton® II.

PRO VALVE

A WINNING COMBINATION ...

The Pro Valve is also available as kit with Triton® II. Adapters (PROV-ADAP) are available for direct mount on existing Triton Filters.

The Triton II features a patented technology to reach a very fine level of filtration, somewhat 4 times better than with conventional sand filter. As a result the water is of crystal quality. ClearPro approaches DE filter clarity with sand filter functionality. The secret is a component inside the filter-a porous tube through which water must pass before it re-enters the pool. It creates a final barrier for the smallest particles, including the finest dust particles, algae and pollens. At the same time, it remains the blissfully simple filter that requires less maintenance than either cartridge or diatomaceous filters. Just an occasional backwashing with the turn of a valve is all it takes to keep Triton II delivering the clearest water year after year.

MODEL	Description
PROV-1010	2" Pro Valve Kit with unions
PROV-ADAP	Retro-fit adaptor for Triton (2pcs)

MODEL Triton® with Pro Valve	Filter Diameter (mm)	Flow Rate (m³/h)	Filter Area (m²)
F-24S8-PRO	610	14	0.29
F-30S8-PRO	762	22	0.45
F-36S8-PRO	914	32	0.64

- Pro Valve : 3-year limited warranty
- Triton II : 10-year limited warranty
